PRODUCT DETAILS

Internal Wedge Assemblies

Features & Benefits

- Machined to close tolerance for maximum clamping force on I.D. of all tooling arms.
- Used for mounting all standard stamped steel shovels and crossbars to all tooling arms.
- Machined key engages the slot on the shovels and crossbars to maintain radial orientation.
- Available in 1" diameter Series 100 and 1-1/4" Series 125.

Our Internal Wedge Assemblies are available in two versions:

- Flex 100 Series Internal Wedge Assembly
Part# S.100.AA.026
- Flex 125 Series Internal Wedge Assembly
Part# S.125.AA.026

ADDITIONAL TOOLING COMPONENTS INCLUDE:

Adapters, Adapter Brushings, Cross Bars, Edge Sensing Assemblies, Internal Wedges, Mounting Assemblies, Offsets, Shovels, Shovels & Traps, Standard Tooling Bases, Swivel Clamp Assemblies, Tooling Arms, Tooling Links, Universal Tooling Receivers
