## PRODUCT DETAILS

# Swivel Clamp Assemblies

Features & Benefits

- Machined to close tolerance for maximum clamping force on standard bases, tooling arms and tooling links.
- Infinite adjustability in three axis.
- Independent adjustability of a single axis without affecting the other two axis.
- 360 degree swivel clamp joint capable of holding 400 foot pounds of torque.
- Clamp collar rotates 360 degrees independently for ease of tightening clamp fasteners.
- Metric fasteners.
- Anodized finish for appearance and durability.

Components

Our Flex 100 & 125 Swivel Clamp Assemblies are available in two sizes:

Flex 100 Series Swivel Clamp Assembly:

U.S. Patent # 6,116,845

Part# S.100.AA.020

Flex 125 Series Swivel Clamp Assembly:

U.S. Patent # 6,116,845

Part# S.125.AB.020

**ADDITIONAL TOOLING COMPONENTS INCLUDE:**

Adapters, Adapter Brushings, Cross Bars, Edge Sensing Assemblies, Internal Wedges, Mounting Assemblies, Offsets, Shovels, Shovels & Traps, Standard Tooling Bases, Swivel Clamp Assemblies, Tooling Arms, Tooling Links, Universal Tooling Receivers
